Hi Kiyeon!

Congratulations on your award for embodying Credo 1: **My career is a choice that indicates my values**. Attached is your certificate.

Here are the kind words your fellows shared when they nominated you for the Credo 1 award:

- Always on the hustle, great team member, has great values...and nailed it with the credo.
- His credo resonated with why there are so many amazing people in VFA and how to get a large salary to do something more aligned with our values.
- Because of his great credo about his experience at Harvard.
- he made a conscious choice to do VFA instead of the more traditional path other Harvard students took
- Goes on his own path!

Additionally, you were nominated for embodying Credo 2: **There is no courage without risk**, Credo 3: **Value creation is how I measure achievement**, Credo 4: **I will create opportunity for myself and others**, Credo 5: **I will act with integrity in all things**. We have also attached those nomination certificates!

Here are the kind words your fellows shared when they nominated you for the Credo 2 Award:

- Kiyeon always does a great job of putting himself out there and asking important questions during sessions!
- During his credo, he talked about going against the Harvard norm of going to work for a big company and doing VFA instead. It takes courage to swim upstream like that, and he did it!
- Kiyeon spitting facts, risky but gotta have courage to do that for sure!
- Kiyeon has all the opportunity in the world graduating from the school and with the connections like he talked about in his credo, however this is a big risk to pursue something smaller and more meaningful through VFA. Cheers to Kiyeon!

Here are the kind words your fellow shared when they nominated you for the Credo 3 Award:

- I was inspired by how he decided to do VFA coming from a Harvard class full of people that are going into jobs that don't create any value for other people
- Great leader

Here are the kind words a fellow shared when they nominated you for the Credo 4 Award:

- He has stepped up to do many events and his credo really showed that

Here are the kind words a fellow shared when they nominated you for the Credo 5 Award:

- Brought his best self to tc.

Thank you for embodying all of the Credos and thank you for your engagement in Training Camp! ***You were one of few fellows to have this honor!*** (all 5)

Best,

Jared and The Training Camp Team
